Good morning - Adding Troy and Tony to this chain

It has been several weeks since we sent this bipartisan TA request in, and for some time now I've been assured the response was ready and about to be sent - but somehow whoever is reviewing the materials never manages to finish.

Our bosses (and other EPW Members) are all committed to finding workable legislative solutions to address some PFAS concerns. That is why we have asked for EPAs input. We simply can't wait weeks each time we request information or responses to TA requests.

Please send us the response today so that our bosses can continue their work on this topic.

Thanks
Michal

Subject: TRI TA request -

Sven

Attached is the next draft, which I tried to clean up by removing resolved comments and flags to reference materials and redlining new text. Thanks to you and the team for the call earlier – hoping this incorporates all the feedback and captures the open questions, but feel free to fix or add anything I messed up or missed.

Thanks again

Michal
